NOTES

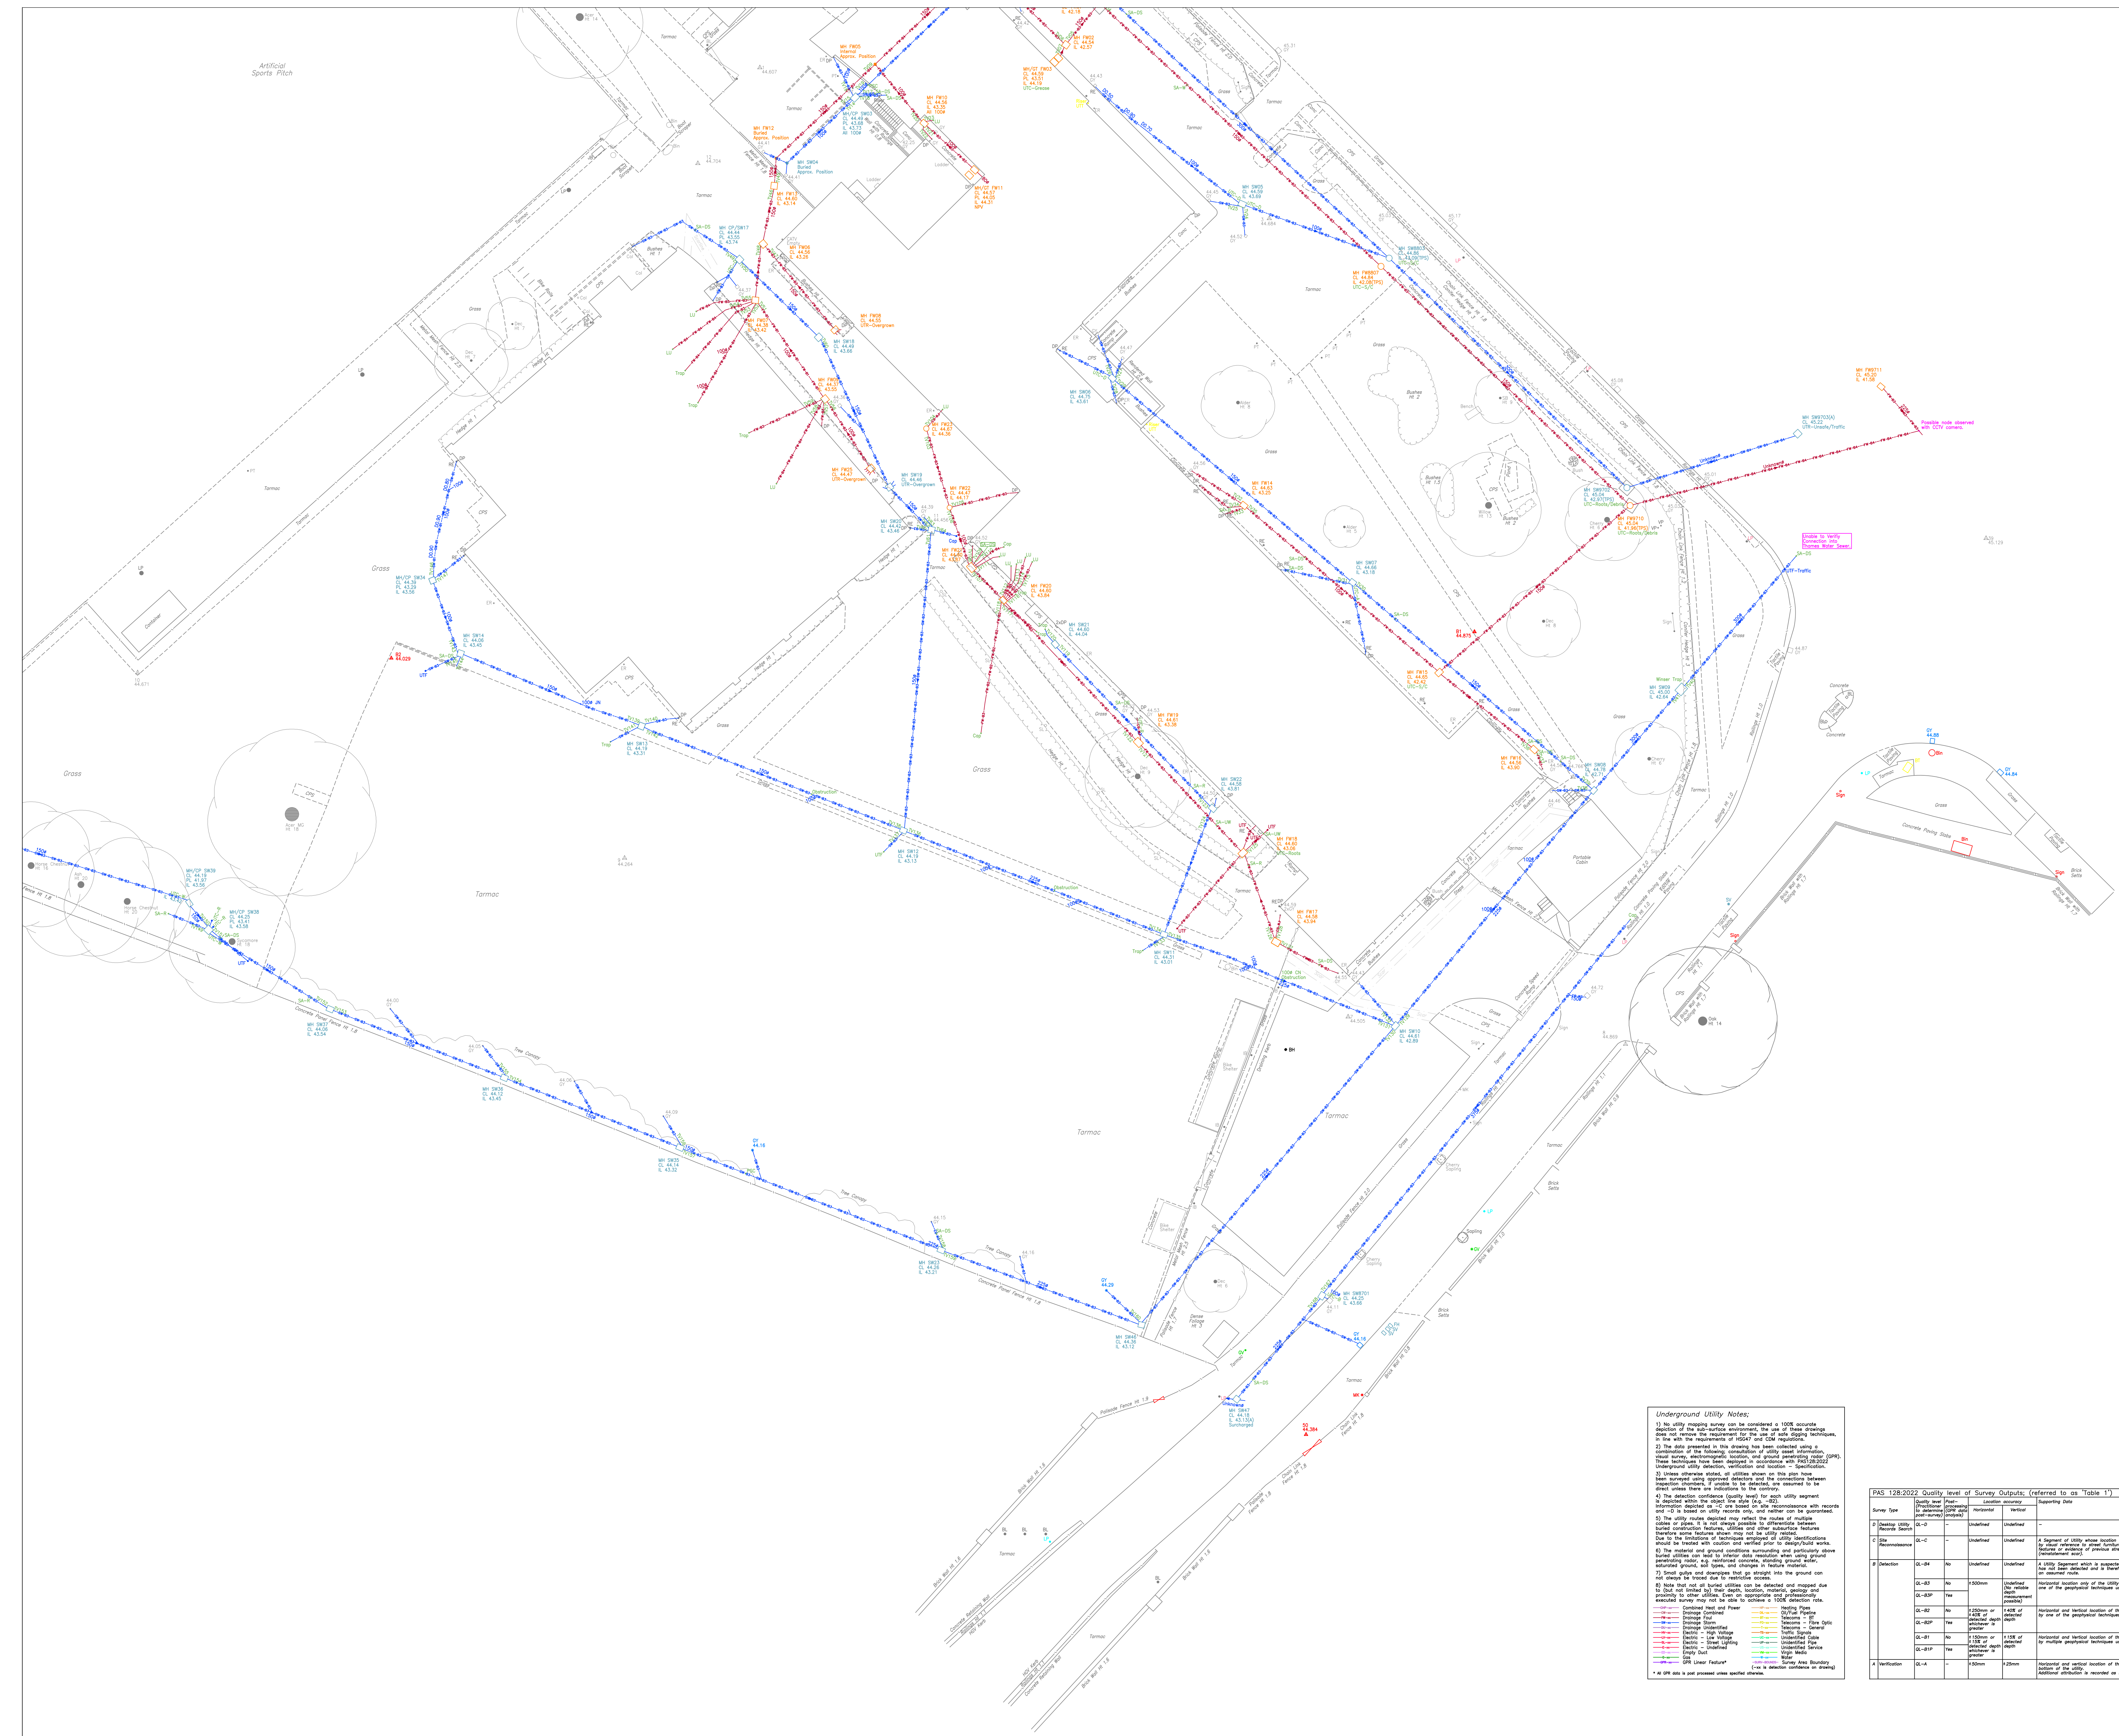

- Drainage pipe sizes (where shown) have been gauged from the surface for safety reasons and should not be relied on as the only.
- * Tree species (where shown) should be treated with caution and expert identification is advised.
- * Although this is a digital survey the accuracy and amount of detail shown is only commensurate with the graphical scale of mapping as specified. Care should be exercised when working to larger scales.
- * Visible features in the vicinity of the boundaries as shown above, may not represent the extent of the relevant conveyance.
- * Whilst every effort has been made to achieve accuracy on this plan, CRUCIAL clearance dimensions, levels and invert levels should be checked prior to design and construction.
- * Kerk levels have been taken in the bottom of the channel.
- * All pipes are 1000 unless stated otherwise.
